

QSC®

# california roots. global reach.

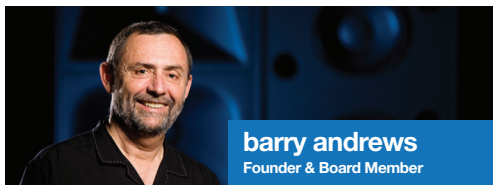

Since our founding, QSC has focused on staying close to our customers. This bedrock principle has been the foundation of our success and the consistent thread that runs through millions of people, hundreds of products, and scores of industry firsts. It pushed us to evolve from an early pioneer in power amplifiers to become a world leader in delivering sophisticated digital audio, video and control platforms for a diverse range of users and applications worldwide.

Born out of a bold culture of risk-taking and challenging the status-quo, QSC is an intense learning organization devoted to **excellence.**

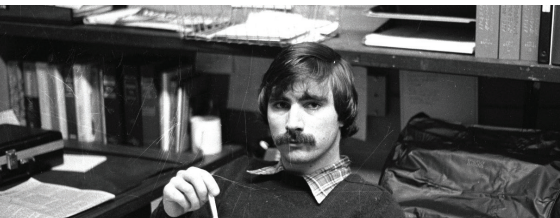

Our commitment to our customers, our partners and our employees: to continue to provide opportunities for growth and prosperity, while enabling impactful experiences through the application of our innovative technology solutions.

- Q-SYS™ Integrated Audio, Video and Control Ecosystem for Cinema Applications
- Cinema Media Servers
- Test & Measurement

# walking in our customers' footsteps

We have always shared the values of our customers. Our willingness to listen and to understand their needs has guided the continuous reinvention of our solutions and our company. Our customers' need to manage their inventories drove us to build our state-of-the-art factory in Southern California, providing build-to-order flexibility. The most popular powered loudspeaker in history, the K Series, was created by a team that made customer experience the top priority in product development, while our end-to-end Cinema solutions make QSC an easy one-stop decision for theatre chains around the world. And our customers' desire to speak to a "real" person means that when we're open for business, their call will always be answered by a human – not a recording.

Quilter Sound Things starts in small industrial building in Costa Mesa, CA

1968

QSC markets its first products outside the local area by attending the NAMM Show

1977

QSC receives its first patent for AC-coupled circuit technology

1978

Today, QSC is at the forefront of a major shift in how businesses will integrate audio video and control (AV&C) into their IT environments. The Q-SYS™ Ecosystem was conceived from the start to unify the AV&C and IT worlds into one seamless user-friendly experience, all as a result of understanding the needs of both the end users, as well as, the individuals and teams responsible for choosing and deploying the right solution. We're customers too, and we know that

**listening** to customers will never go out of style. It's not a magical formula – just good business.

QSC breaks \$1 million in annual sales

1979

OEM manufacturer of amplifiers for Dolby® Labs heralds QSC entry into Cinema

1981

Series One introduced, representing the company's first true value-oriented amplifier series for professional use

1983

**OWN**  
the night

solutions for **unforgettable** experiences

# innovative solutions for professionals

Every innovation we've introduced over the prior decades has pushed the state-of-the-art forward. The ultimate goal is always to empower our customers' ability to deliver impactful experiences for their audiences, employees, guests and patrons. Whether powering a live musical performance, a crucial remote conference call, or the latest immersive cinema sound experience, we innovate the system platforms and solutions that make the entire communication experience more intuitive and **inspiring.**

QSC provides first QSC-branded products to the Cinema market

1985

Release of EX Series Amplifiers, the introduction of "open architecture" amp design

1991

Debut of QSCControl, the company's first software platform for network audio

1992

# live sound. systems. cinema.

## live sound.

QSC Live Sound products inspire great performances. They set up quickly, sound great, look and feel professional, are easy to use and are road-proven—confidently reliable year after year. Our products and systems are also designed to be flexible and interchangeable in a myriad of configurations, allowing you to flex, grow and above all, deliver high-quality, unforgettable experiences for your audiences.

Company's new 55,000 square foot headquarters provides quality manufacturing of over 500 units per day

1993

QSC Develops DataPort™, providing control and telemetry to QSC amplifiers

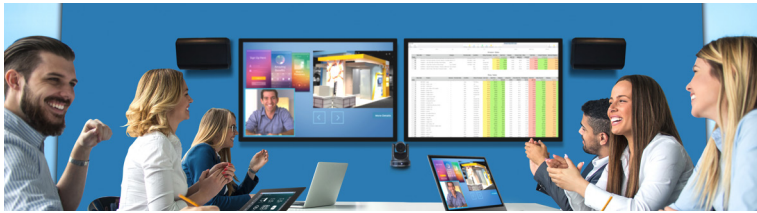

1994

PowerLight™ Series amplifiers usher in a new era of lightweight amplifier technology

1995

# systems.

QSC is a globally recognized manufacturer of audio, video and control solutions for huddle rooms to stadiums — and everything in between. Our systems make it easy for your team to design and integrate flexible, scalable solutions and deliver the native IT integration and standards-based technology your customers expect.

QSC becomes the world's first licensee of CobraNet®

1996

Ground is broken for a new 81,000 square foot state-of-the-art facility, adjacent to existing headquarters.

1998

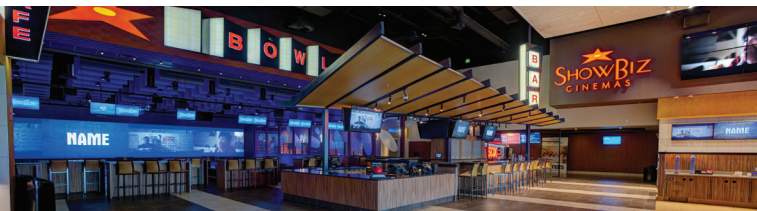

Debut of RMX Series Amplifiers, first joint venture into contract manufacturing

2000

# cinema.

QSC offers the cinema industry's most comprehensive catalog of solutions including signal processing, power amplifiers, loudspeakers, accessibility solutions, media servers, and test & measurement equipment. Supported by a team of knowledgeable and highly experienced cinema professionals, QSC Cinema provides optimized system solutions for rooms of any size, sound format and budget.

Debut of ACE Series loudspeakers

2001

QSC introduces DCS loudspeakers,  
entering Cinema loudspeaker market

2003

QSC releases ModularDesign™  
Series loudspeakers for installed sound

2003

**difference**

solutions for **unforgettable** movie-going experiences

# moving forward to the future

As a growth company, QSC is committed to expanding as both a technology platform leader and a customer experience leader in the markets we serve.

Across the organization, we're **committed** to investments to fuel global growth in areas such as technology, infrastructure, marketing, and our most important asset – our people. And we're continuing to innovate new standards for delivering sophisticated digital audio, video and control solutions that elevate customer experiences, add more value for our partners and create new opportunities for our employees. In this world, everybody wins.

Peak Audio's R&D team joins QSC, setting the concept of Q-SYS™ in motion

2006

QSC launches Q-SYS™ integrated audio, video & control platform

2009

QSC introduces K Series powered loudspeakers, establishing the "New Standard" for the industry

2009

# service, transparency and collaboration

Technologies will change, but our enduring commitment to be a trusted provider of platforms, solutions and systems that set new industry standards remains a constant passion. As we work closely with the thousands of QSC service professionals, dealers and affiliates in 100+ countries around the globe, we will continue to invest in infrastructure and **expertise** to serve customers where they live and work.

QSC opens its first subsidiary:  
QSC Asia, in Hong Kong

2010

QSC wins the first of seven "Top Work  
Places" in Orange County awards

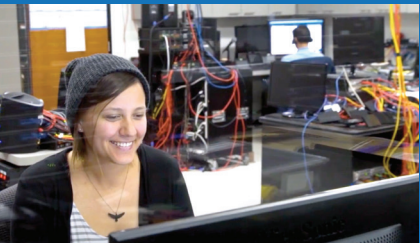

2010

QSC enters digital mixer market with the  
introduction of the TouchMix™ Series

2014

Collaborate. Innovate. Thrive. **Grow.**

# voted best place to work by our employees

From the beginning, QSC has always been an organization where engaging our employees has been at the heart of creating a positive work environment. Our unique culture is centered upon open communication and collaboration in a relaxed, yet highly-focused and determined atmosphere. With dedication to our core values of quality, **integrity**, service, commitment, teamwork and work hard/play hard, it's no surprise we've been consistently voted a Best Place to Work by our employees. Our company thrives and grows by making sure our people grow along with the business and opportunities for personal and professional development abound.
