Cutout template

Print setup instructions:

1. Select 11 × 17 inch paper size.
2. Select actual size (i.e., no zooming, no “Fit to page,” etc.)

A diagram of a semi-circular cutout template. It features a dashed black arc representing the cutout's edge. Two solid black lines extend from the ends of the arc to a central point, forming a 180-degree angle. A double-headed arrow is drawn along the top of the arc. Text is written along the left side of the angle, indicating the diameter of the circle from which the arc is derived.

305 mm dia.
(12.01 in)
